## Kingsport Amateur Radio Club June 2025 Edition

## **President Notes**

June has arrived, bringing a flurry of activity to the club. The presentation for June was outstanding. I never realized how fascinating pico balloon hobbies could be, and Steve Bible, the presenter, was exceptional. I encourage anyone who missed the meeting to visit, <http://amateur.sondehub.org>, to explore the capabilities of these balloons.

We are finalizing preparations for Field Day. We hope to encourage anyone who hasn't signed up but plans to attend to visit the website and sign the planning roster. The Field Day link is available on the homepage. Many members expressed interest in attending during the meeting but have not yet registered online at <https://w4trc.org/field-day/>

The July meeting is scheduled for July 10th. The presentation will introduce digital modes, accompanied by live demonstrations. It promises to be an engaging program. The main course for the meal will be sliced roast beef. As everyone recalls, we will be implementing a rotating menu from this point forward. The main courses will include roast beef, meatloaf, fried chicken, and glazed apple tenderloin, in that order. Additionally, the club will continue to send out monthly reminders regarding programs and meals. We have received interest in substituting turkey and dressing for the December Christmas meeting. In early July, we will post a sign-up sheet online for the club's annual picnic. Please look for it next month and consider bringing a side dish. It's always a great time!

I hope everyone is having a wonderful summer so far.

Neil Weber KM4NWH

Club President

## **Club News**

We are currently working with the Kingsport Chamber of commerce to get a station setup for funfest. This will occur on July 21st 10- 3 and 22nd 1 - 5 near the douglas high school. This is a family day established to "Promote interest with interactive exhibits that promote educational opportunities, active lifestyles and parent support!" We plan to have an HF and VHF setup for exhibit, Meshtastic, and also plan to have foxhunting equipment setup where families can sign up to go on a fox hunt with club equipment. The event is a Monday and Tuesday so if you are available please let us know.

The KARC foxhunt for June will take place on the 21st of the month. It begins at 3 p.m. And check-ins starting at 2:45 p.m. On the 146.970 repeater. Participants can start from any location in the area, keeping in mind that the foxes will be hidden within the city limits, so having a map on your phone is advisable. All fox frequencies are listed on the [W4TRC.org](http://W4TRC.org) website. If you are interested in joining the first trip, please contact Josh Carmack or Neil Weber to arrange a ride. Their phone numbers and email addresses are also available on the website.

HHART & KARC meets at Randall's every 3rd Wednesday of the month from 10:00 AM - 12:00 PM.

### **Holston River Valley HF Net 7.295 MHz**

**Beginnings:** In mid 2025 the Holston River Valley HF Net was started as a platform to bring people and clubs the East TN, SW VA area together each Wednesday night at 8:00 PM local time.

**Growth:** This net is open to anyone that holds a General class or higher license.

**Technology:** We will be utilizing Netlogger for this net. We will take check-ins from Netlogger and will request RF check-ins. [Download Here](#)
