## Kingsport Amateur Radio Club August 2025 Edition

## **President's Notes**

August is upon us. Welcome back to school for the youngsters, and perhaps a brief break for our young parents. For those who were unable to attend the annual picnic at Picnic Shelter 9, it was a huge success. There was a large turnout and a strong sense of camaraderie. Many more people attended than originally expected, which was a wonderful surprise! We also welcomed a few new members, which is definitely a positive for the club.

Although I hated to make the announcement, I did inform everyone at the picnic that I will be unable to run for president in 2026. I had initially planned to serve as president for a minimum of two years. Unfortunately, my business in South Carolina has been struggling, and as much as I don't want to leave, I will need to relocate there to manage it. I expect this will last for one to two years and will not be permanent, as I love this area. I hope to remain here through the October meeting and plan to continue in my role through the end of the year. Many initiatives are currently being planned. If anyone is interested in running for president or any other leadership position in the club, please notify an officer.

There is a lot happening in the club. At the next meeting, Larry Dale will give a presentation on how to organize special event stations. I believe the meal will be meatloaf. I am relying on memory here and recall that we follow a four-meal rotation voted on by the club.

I am gathering information about the Troy F. Reid Center as a potential meeting place, and I am sure we will have discussions about it. As you are all aware, the meal price has increased to \$17, which has raised some concerns. Any change of venue will be put to a vote, and other options can be proposed, including staying on-site.

Another update is that Chris Early is moving forward with plans to get the 900 MHz and 6-meter repeaters on the air. We are all looking forward to it, and I have a meeting with Chris on Monday to finalize the plans.

On another matter, we have been contacted by the owner of the repeater site, who is interested in selling the property within the next year. He wishes to offer it to the club first, and we are currently in discussions with him regarding this possibility.

For Christmas this year, I am considering switching the meal rotation to a turkey and dressing theme. The leadership team has been discussing activities, and we are thinking about hosting a trivia game. In this event, tables will be assigned numbers, and participants will rotate between tables before finally rotating to individual play. There will be a few prizes for the winners. The questions will be ham-related. This plan is still in progress and not finalized, but we believe it could be a fun way to change things up from past events like Secret Santa.

Winter Field Day is quickly approaching, and we are looking for someone to serve as the lead. I would like to do it again, but I will be in South Carolina, and organizing it remotely is too challenging. Following the club picnic, I was tasked with investigating porta john rentals for the Mt. Carmel Winter Field Day station. Unfortunately, the cost of porta johns exceeded the rental fee for the pavilion at Warriors. Unless we set up a makeshift camping porta potty on-site, this expense may be prohibitive. Last year, I brought my camper and used it as a bathroom, but that won't be possible this year since I will be in South Carolina. We will discuss this further at the next meeting, but perhaps Warriors would be a better location. If anyone has other suggestions, please inform an officer.

Sincerely,

Neil Weber, KM4NWH

President

## **Club News**

\*\*\*\* AUGUST FOXHUNT IS CANCELED \*\*\*\*

The KARC foxhunt for ~~August~~ will take place on the ~~16th~~ of the month. It begins at 3 p.m. And check-ins starting at 2:45 p.m. On the 146.970 repeater. Participants can start from any location in the area, keeping in mind that the foxes will be hidden within the city limits, so having a map on your phone is advisable. All fox frequencies are listed on the [W4TRC.org](http://W4TRC.org) [website](#). If you are interested in joining the first trip, please contact Josh Carmack or Neil Weber to arrange a ride. Their phone numbers and email addresses are also available on the website.

HHART & KARC meets at Randall's every 3rd Wednesday of the month from 10:00 AM - 12:00 PM.

**NETS:** David Herron K4UVU just volunteered and was voted in as the clubs new Net administrator. He currently needs 1-2 new controllers due to commitments causing problems for 2 of the old controllers. We are also considering additional nets on other bands. Let us know what you have interest in.

### **Holston River Valley HF Net 7.295 MHz**

**Beginnings:** In mid 2025 the Holston River Valley HF Net was started as a platform to bring people and clubs the East TN, SW VA area together each Wednesday night at 8:00 PM local time.

**Growth:** This net is open to anyone that holds a General class or higher license.

**Technology:** We will be utilizing Netlogger for this net. We will take check-ins from Netlogger and will request RF check-ins. [Download Here](#)
